Ultrasound guided regional anaesthesia workshop (5) - Advanced upper limb blocks

**IMPORTANT NOTICE: access is limited to pre-registered delegates**

**Learning objectives:**
This half-day hands-on ultrasound workshop will focus on the advanced skills in ultrasound techniques relevant to anaesthesiologists. This workshop includes a short anatomical lecture followed by expert-led practice on living models and phantoms. After the session, participants will have acquired the skills in ultrasound-guided regional anaesthesia of the upper limb.

**Target audience:** Residents, fellows, physicians interested in regional anaesthesia and chronic pain medicine.

**Chairs:**
Patrick Scheiermann (Munich, Germany)
Roland Tomasi (Munich, Germany)

**Anatomical lecture**
Susanne Sujatta (Bayreuth, Germany)

**Station 1:** From the interscalene block to phrenic nerve sparing blocks: Suprascapular nerve block - Axillary nerve block

**Station 2:** Supraclavicular BP block and upper trunk block

**Station 3:** Proximal thoracic ESP block for shoulder and clavipectoral fascia block for clavicle

**Station 4:** Proximal infraclavicular: Costoclavicular and retroclavicular BP blocks

**Station 5:** Axillary BP blocks plus intercostobrachialis nerve block

**Station 6:** Rescue blocks of the upper limb

**Instructors:**
Susanne Sujatta (Bayreuth, Germany)
Rainer Litz (Augsburg, Germany)
Stephan-Andreas Schöniger (Augsburg, Germany)
Thilo Geiser (Murnau, Germany)
Philip Lang (Bamberg, Germany)
Raoul Breitkreutz (Frankfurt, Germany)
