STEP1: Prepare your E-POSTER

Before recording your video presentation, you need to prepare an e-poster as per the following requirements:

Please submit your poster in landscape orientation. A ready-made e-poster template in PowerPoint format is available and can be downloaded on the [Euroanaesthesia website](#).

- Number of pages: 1
- File format: PDF or PPTX
- Poster ratio: 16:9
- Poster size in cm: 33,867 width x 19,05 height – landscape orientation

In case you wish to add a video to your e-poster, please keep these requirements in mind:

- File format: .pptx only
- Video formats: .mp4
- Max. number: 5 videos
- Sound: not supported

STEP 2: Record your PRESENTATION

In addition to your "static" e-poster, you are kindly requested to record a presentation of your poster.

- Maximum length of the video presentation is: 7 min
- Video formats: .mp4 only
- Clean cut at the beginning and at the end of your presentation

The recording guidelines can be found on the [Euroanaesthesia website.](#)
Please make sure that the video and sound quality are sufficient. Your video will NOT be revised and/or edited.

If you have any technical questions while preparing your poster and/or presentation, please contact the Technical Support Team directly via support@posterwalk.com.

For any other questions regarding your abstract and/or poster presentation @ the Virtual Euroanaesthesia 2021, please contact abstracts@esaic.org.
